| | |
|------------------|---------------------------------|
| Languages | Java, C, JavaScript, SQL |
| Web Technologies | HTML and CSS |
| Databases | Oracle 10g, MySQL, MongoDB |
| Frameworks | Spring Boot, Hibernate, Node.js |
| Tools | Eclipse, Vs Code, NetBeans |

ACADEMIC PROJECTS

Project #1

Project Name: RTO Management System

Duration: July 2019 – Sept 2019

Software Requirements,

- Front End: HTML5, CSS3, Bootstrap
- Back End: MySQL, PHP
- Tool: XAMPP
- Programming Server: Apache server

Responsibilities:

- Provide technical support to the Project.
- Designed the Entire Project Using HTML and CSS
- Performed various testing on the project
- Create and maintain comprehensive project documentation
- Measure project performance using appropriate systems, tools and techniques.

Project#2

Project Name: Hospital management system

Duration: July 2020 – Aug 2020

Software Requirements,

- Front End: HTML, CSS
- Back End: MySQL, Java
- Framework: Spring Boot
- Tool: NetBeans

Responsibilities:

- Resolved all the databases related issues
- Participated in maintaining and managing the databases
- Create and maintain the project documentation
- Performed Unit Testing, Functional Testing on the project
- Working closely with the rest of the technical team during the implementation phase
- Reviewing the entire code and resolving it if any error occurs
- Communicating with team members and supporting them.

Project #3

Project Name: TRUCOM

Duration: Feb 2021 – Jun 2021

Software Requirements,

- Front End: HTML, CSS and JavaScript
- Back End: Java
- Frameworks: Node.js and Angular
- Database: MongoDB, MySQL
- Tools: Postman

Responsibilities:

- Worked as a backend developer and maintained the database of the project
- Build a model for developing the project
- Created and maintained the documentation of the project
- Closely worked with web development team and learned to build the API's
- Participated in the entire Project Life cycle
- Troubleshoot and debug the application
- Tested the Software using various Testing Tools.

Mini project:

Project Name: "Implementation of the functionalities of Linear Data Structure"

Requirements: Java, Eclipse IDE (Window Builder)

- This mini project was based on core Java concepts and showed how linear data structures are implemented
- I developed this project by using the Swings Concept in Eclipse IDE (Window Builder).

PERSONAL DETAILS

- Nationality: Indian
- Date of Birth: 28 OCT 1997
- Languages known: English, Hindi, Kannada, Tamil
- Marital Status: Unmarried
- Permanent address: #112, 3rd Main Road, K H Ranganatha Colony, Chamrajpet, Bangalore-560018.
